

Villa TINTA

Odesa White 2024

TECHNICAL DETAILS

GRAPES

100% Sukholimanskiy

SOIL

Loamy soil rich in minerals, with deep-lying deposits of limestone

ACIDITY

5.8 g/l

SULFITES

120 ppm

REGION

Bolhrad, Southern Bessarabia, Odesa region-Ukraine

ALCOHOL

11.5%

RESIDUAL SUGAR

1.7 g/l

CASES PRODUCED

4,400

WINEMAKER NOTES

Odesa White is made from Sukholimanskiy grapes, a white grape hybrid created in Ukraine in 1949 as a cross between Chardonnay and Plavay, an uncommon Moldovan grape. Limited to the Bolgrad district in the Odesa region, Odesa White is a true Ukrainian wine variety and rare find for wine lovers who will appreciate the nose of orchard blossom on the palate green apple, citrus and green pear. This aromatic dry white wine has great balance between acidity and minerality. It is destined to become your new favorite. Serving temperature 50°F.

WINEMAKER

Established after Ukrainian Independence on the foundations and land occupied by the historic Count Davydov chateau and winery (destroyed by the Soviets), this second-generation family winery's vineyards nestle in a sunny valley along the shores of Lake Yulpuh, Ukraine's largest natural lake. The Tintulovs—brothers Kostiantyn and Yuriy and their mother Tetyana—craft their Villa Tinta wines with a commitment to quality and sustainability on 1,360 acres. Grapes are hand-picked and the winery has modern French and Italian equipment, an up-to-date bottling line, and a certified laboratory. Despite intermittent shelling and losses of power, Villa Tinta winemakers continue crafting their wines to showcase Ukraine's historical Bessarabia wine region.

WINEMAKER NOTES

Odesa Black is a red grape hybrid created in Ukraine in 1948 on the shores of Lake Yalpuh as a cross between Alicante Bouschet and Cabernet Sauvignon. Having both red skin and red flesh, reminiscent of a Côtes du Rhône, Odesa Black's beautiful dark ruby color anticipates its smooth, silky structure. There is brightness on the nose, tart cherry on the palate with subtle tannins. The finish is black cherry and black pepper. Considered the "mustang" of red varieties, its rich color and spice riot is the future identity of Ukraine. Serving temperature 55°F.

WINEMAKER NOTES

This naturally semi-dry Cabernet Sauvignon is a delicious result from the climatic conditions of the 2022 harvest. Italian clones of Cabernet Sauvignon combine with the terroir of the Bessarabian steppe and Lake Yalpuh's cool breezes to produce a soft, medium-bodied semi-dry red wine with profound flavors of raspberries (lambic) and cranberries on the nose. Sweet notes of stewed forest berries on the palate. Finish is with vanilla notes and soft tannins. It was sawed specifically for the American market as an expression of gratitude. Serving temperature 60°F.
